Hi Emily,

Gloria Lee at Our Lady's Inn has been trying to create a subcontractor account today. When she tried to create her account she received the below message. I told her to go ahead and attempt to complete the bottom half of the instructions and try to log in using the access code. She kept getting access denied messages. She's tried several times and has even gone back and started at the beginning again and she keeps getting the below message. She's closed out of the browser, we've double checked her email, and spelling of her name. I'm not sure what we need to do next. Any advise?

Thanks for your help!
Carrie

This is what I keep getting and I keep making new passwords and getting no where, so now I do not even know what password I should even use.
